Cumbre del Sol

Villa Solei is a contemporary villa in Residencial Jazmines, designed for an international client looking for a home with modern architecture, a comfortable layout and a way of living closely connected to the outdoors and to the views over the Mediterranean. The project stands out above all for its architectural concept: a home developed almost entirely on a single level, with the living areas and the bedrooms on the same floor. It is a layout that is particularly sought after in the luxury segment for the comfort, the practicality and the sense of space it offers. The architecture opts for a clean and refined appearance, combining large white volumes, natural stone cladding and generous expanses of glass.
